

REQUEST TO RESCHEDULE 2019 CVP WATER

I am requesting to reschedule up to _____ AF of my 2019 Central Valley Project Water into the 2020 CVP water-contract year beginning March 1, 2020. I understand that my ability to reschedule water is limited and is subject to the US Bureau of Reclamation's (USBR) Guidelines¹ for rescheduling, including potential loss of the water and all associated costs, which are non-refundable.

To process my request, I understand and agree to the following:

- The amount of water ultimately rescheduled will be determined by the District after accounting for February usage, transfers, and the pro-rata availability of rescheduled supply;
- The CVP Water I request to reschedule will be paid for at the time of this request at the rate of \$51.10 per acre-foot;
- The Rescheduling Fee of \$9.03 per acre-foot for the amount requested will be paid for at the time of this request;
- The true-up between the amount of water requested for rescheduling and the actual amount rescheduled will occur in the March billing and may result in additional costs or a refund/credit;
- The delivery of rescheduled water will be dependent upon accounts being in good standing and all required Reclamation Reform Act forms having been verified;
- The amount of water ultimately rescheduled is subject to loss at any time, and costs associated with the loss of rescheduled water are non-refundable.

This form must be submitted to the District by February 29, 2020.

Account Name: _____

Authorized Signature: _____

Please e-mail your requests to billings@panochewd.org or send by fax (209) 364-6122

Thank you.
